MUSICAL INSTRUMENTS LABORATORY

Between Music and Civic
Education

**Co-funded by
the European Union**

THE PROJECT

The aim of the project is building musical instruments with recycled objects; it will also have an impact on civic education because it concerns the issues of eco-sustainability and safeguarding the planet.

The project involves two first year classes of middle school and it is done at school in lessons time

NECESSARY MATERIAL

We used aside material
such as:

- WOOD: (sticks, spoons of different sizes, tablets)
- METAL: (jars, dishes of various types and sizes, lids or pans, caps, keys, bolts)
- PLASTIC: (bottles, containers, even glasses, boxes)
- PAPER (boxes, cardboard)
- other: string, jars or other.

PHASES

The project will be divided into different phases:

PHASE 1: RESEARCH OF HAND-MADE MUSICAL INSTRUMENT MODELS ON WEB OR BOOKS (TEACHER SUPPLIED MANY IMAGES FROM BOOKS) WHICH STUDENT CAN INSPIRE BY

PHASE 2: RESEARCH OF MATERIALS (WOODS, PAPER, PLASTIC...) AND SELECTION OF THEM

PHASE 3: DESIGN OF THE INSTRUMENTS THAT ARE INTENDED TO BUILD

PHASE 4: CREATION AND DECORATION.
WILL BE NECESSARY OTHER MATERIAL LIKE SCISSORS, SCOTCH, HOT GLUE, CUTTER AND OTHERS)
